Mr. Jim Renkert, Project Review Coordinator
State of Alaska Department of Natural Resources
Office of Project Management and Permitting
Alaska Coastal Management Program
550 West 7th Avenue, Suite 705
Anchorage, Alaska 99501

Subject: Gillean's Inlet View Subdivision

Dear Mr. Renkert:

The staff of the Kenai Peninsula Coastal Zone Management Program (KPBCZMP) reviewed the subject project and finds it consistent with KPBCZMP enforceable policies.

Project Description

The scope of the project is the proposed discharge of approximately 1,150 cubic yards of fill material (approximately 480 cubic yards of drain rock and 670 cubic yards of road rock) into 3.33 acres of wetlands for the purpose of constructing access within Gillean's Inlet View Subdivision Phase II. Approximately 450 linear feet of the proposed roads and driveways are classified as wetlands.

Findings

This project does not effect erosion prone areas of the Kenai Peninsula Borough and is thus consistent with KPBCZMP policy 2.2, Erosion. The KPBCZMP has no enforceable policies related to construction activities in wetlands that are not important to recreational uses.

Thank you for the opportunity to comment on this project.

Sincerely,

Gary Williams
Kenai Peninsula Borough
Coastal District Coordinator
